- To alert approaching vehicles of police activity in front and slow down

Ergonomic Grip Design

- Non-slip comfortable rubberized grip

Technical Specification

Measuring Modes	Manual Screening
Sensor Type	Evidential Grade Electrochemical Fuel Cell
Measuring Range	0 to 220 mg / 100ml BAC
Operating Temperature	-5°C to 40°C
Operating Humidity	20 - 95% RH
Test Records Storage	> 10000 Tests
Interface	USB Port to PC Download
Battery Capacity	Rechargeable Lithium Ion Battery
Display & Operation	TFT Colour Display with 3 button operation
Visual LED Indicators	Red, amber & green LEDs for visual indication
Audio Buzzer & Beeper	Emits beeping sound while blowing
Printer (optional)	Cable & Wireless Connections Available **
Water Resistance Rating	IP54
Impact Resistance Rating	IK 03
Mouthpiece Ejection System	Easy & Hygienic Disposal
